Commentary

Welcome to the seventh biennial Desert Skies Symposium on Research in Music Education sponsored by the School of Music and Dance at The University of Arizona in Tucson.

The symposium is more than a forum for presentation of research. It is also a time for sharing ideas and reflecting about research trends and issues. This year, our general topic is Music Teacher Education, although there is a broad variety of papers on many topics being presented. The eight papers being presented here, which were chosen by blind review of the Advisory Board, represent the diversity of areas and interests in the field of music education.

Stephen J. Paul
Symposium Director
